

## Electro-Fashion, Latching Switch

Electro-Fashion, Latching Switch has large connection points for the conductive thread, clearly marked to show the battery polarity.

Code 2753

### • Product Description

Introducing the Electro-Fashion, Latching Switch: easily turn your e-textiles projects on and off with the click of a button! The switch latches meaning you press once to turn the power on, and again to turn the power off.

Connect your power supply to the side of the board labelled IN and your outputs like LEDs or buzzers to the side labelled OUT.

This Electro-Fashion, Latching Switch has large connection points for the conductive thread, clearly marked to show the battery polarity.
